# Nature and Value

- Study/Work Extension App
- Designed to make virtual workplace more comfortable; Increase productivity
- Minimizing distractions - Block certain websites
- User will be able to customize his/her virtual work environment
  - (Background images, sounds etc.)
- Screen Dimmer
- More Features

# Intended Audience

- Mainly for the use of those who largely work on their computer
  - Students
  - Remote Workers
- General use
  - Anyone wishing for a nice browser environment to work in free of distractions, other headaches

# How it makes their lives better

- Improves Productivity
  - Minimizes Distractions by blocking out certain sites
  - Makes the window full screen
- Benefits user physically
  - Dimming screen - Good for eyes
- Personalization
  - Users can set the mood for their own liking
    - Custom background noises
    - Custom background aesthetic
  - Ability to allow/block specific notifications

# How we gained that insight

- From experience:
  - Productivity is at highest when distractions are at a minimum
  - Certain sounds increase productivity and focus (Studies have shown)
- Having a user friendly work environment can only be beneficial
- Makes work more enjoyable
- Improves the aesthetic aspects of your browser, akin to having decorations on your home/office walls
  -

**The End**
